Administrative Overview

Section 1

Administrative Overview

I. Authority

The Hawaii State Legislature established the Hawaii Public Housing Authority (“HPHA”) under chapter 356D, Hawaii Revised Statutes (HRS). The HPHA provides low income housing in the State of Hawaii and is administratively attached to the Department of Human Services. The HPHA is a public body and a body corporate and politic of the State of Hawaii. The HPHA’s role is to address the housing needs of families in Hawaii. The HPHA seeks to competitively procure property management, maintenance and resident services for the Federal funded low-income public housing properties under Asset Management Project 49 (“AMP 49”) on the Island of Oahu.

A determination has been made that the HPHA is unable to secure services through a low bid process. Factors included in the determination were 1) Price is not the primary consideration in determining an award; 2) The resulting Contract needs to be other than a fixed-price type; 3) The specifications for the services cannot be sufficiently described through a low bid process; 4) Oral or written discussions need to be conducted with Offerors concerning their proposals; 5) Offerors may need to revise their proposals, including price; and 6) The award needs to be based on a comparative evaluation in order to determine the most advantageous offer to the State. To that end, a low bid process is not practicable to the HPHA to secure property management, maintenance and resident services for AMP 49.

This Request for Proposal (“RFP”) is issued under the provisions of chapter 103D, HRS and the related administrative rules, and the United States Department of Housing and Urban Development’s (“HUD”) regulations. Offerors are charged with presumptive knowledge of all requirements of the cited authorities. Submission of a valid executed proposal by any Offeror shall constitute admission of such knowledge on the part of such Offeror.

II. RFP Organization

This RFP is organized into five (5) sections:

- | | |
|-----------|--|
| Section 1 | Administrative Overview – Provides an overview of the procurement and contracting process. |
| Section 2 | Scope of Work and Specifications – Provides a general description of the tasks to be performed, delineates Offeror’s responsibilities, and defines deliverables as applicable. |
| Section 3 | Proposal Form and Instructions – Describes the required format and content for the proposal. |

Section 4 Proposal Evaluation & Award– Describes how proposals will be evaluated.

- D. **Wages and Labor Law Compliance.** Prior to entering into a Contract in excess of \$25,000, an Offeror shall certify that it complies with section 103-55, HRS, wages, hours, and working conditions of employees of contractors performing services. Section 103-55, HRS, provides that the services to be performed shall be performed by employees paid at wages not less than wages paid to public officers and employees for similar work. Offerors are further advised that in the event of an increase in wages for public employees performing similar work during the period of the Contract, the Successful Offeror shall be obligated to provide such increased wages.

Offerors shall complete and submit the attached Wage Certification certifying that the services required will be performed pursuant to section 103-55, HRS. See Attachment 23.

The Successful Offeror shall be further obligated to notify his employees performing work under this Contract regarding the provisions of section 103-55, HRS, and the current wage rates for public employees performing similar work. The Successful Offeror may meet this obligation by posting a written notice to this effect in the Successful Offeror's place of business in an area accessible to all employees.

Offerors are strongly encouraged to account for salary increases as posted by the State Department of Human Resources Development (DHRD). The **HPHA will consider requests for increases as a result of wage increases to public officers and employees during the contract period or any option period that are not published.** At the release of this solicitation, the effective wages for State employees performing similar work have been published by the DHRD. See Attachment 24.

If wages increase after the execution of the Contract, the Successful Offeror may request an increase in contract price in order to correspondingly increase the wages of the Offeror's employees performing the work, including any increase in costs for benefits required by law that are automatically increased as a result of increased wages, such as federal old age benefits, workers' compensation, temporary disability insurance, unemployment insurance, and prepaid health insurance.

The Successful Offeror shall not be compensated for any reimbursement of retroactive pay negotiated by the State. The Successful Offeror's request for the increase must meet the following criteria:

1. If the Successful Offeror's hourly wage rate is greater than the prevailing State wage at the time of the offer submittal, the Successful Offeror's requests for increase will not be considered.
2. The Successful Offeror must or must have provided documentation to show that it is in compliance with section 103-55, HRS, that its employees are being paid no less than the known wage of the listed State position. Documentation shall include the employees' payroll records and a statement that the employees are being utilized for this Contract.
3. Request for an increase must be made in writing to the HPHA on a timely basis:
 - a. Request for increase for the initial Contract period must be made as soon as practicable after the State wage agreements are made public. Approved requests will be retroactive to the date of increase for the State employees with adequate documentation that the Successful Offeror provided its employees a wage increase.
 - b. Request for increase for an option period of the Contract must be made prior to the start of the option period. To obtain the current wage information download the information from the Department of Human Resource Development's website at the following address:

<http://dhrd.hawaii.gov/state-hr-professionals/class-and-comp/salary-schedules/>

It is the sole responsibility of the Successful Offeror to comply with section 103-55, HRS.

- E. **Confidential Information.** If an Offeror believes that any portion of a proposal contains information that should be withheld as confidential, the Offeror shall request in writing nondisclosure of designated proprietary data to be confidential and provide justification to support the designation of confidentiality. Such data shall accompany the proposal, be clearly marked, and shall be readily separable from the proposal documents to facilitate eventual public inspection of the non-confidential sections of the proposal documents. Note that **price and the provision of the minimum required services are not considered confidential and will not be withheld.**

Offerors that chose to identify portions of their proposal as confidential shall be responsible to ensure that the price and minimum services are not included. The HPHA will not make any determination of confidentiality for the Offeror.

If a proposal is marked confidential in its entirety, the HPHA will not make a determination of confidentiality and will refer the request for information to the State Office of Information Practices.

F. **Exceptions.** Offerors shall list in their proposal any exceptions made to the terms, conditions, specifications, or other requirements listed herein. Offerors must reference the RFP section where the exception is made, provide a description of the exception, and any proposed alternative. The HPHA shall retain the right to grant exceptions to discretionary policies. Requests for exceptions to State, Federal, or local laws shall not be approved.

G. Information shall be made confidential as permitted by law.

XIV. Costs for Proposal Preparation and Verification

Any costs incurred by Offerors in preparing or submitting a proposal are the Offeror's sole responsibility. Any costs incurred by the Successful Offeror prior to the execution of a Contract are not eligible for reimbursement.

Offerors shall ensure that the HPHA is provided with the written authorization(s) necessary to verify information provided in the Offeror's proposal.

XV. Mistakes in Proposals

While Offerors are bound by their proposals, circumstances may arise where a correction or withdrawal of proposals is proper. An obvious mistake in a proposal may be corrected or withdrawn or waived by the Offeror to the extent that it is not contrary to the best interest of the HPHA or to the fair treatment of other Offerors. Mistakes in proposals shall be handled as provided for in section 3-122, HAR, and HUD requirements as specified in HUD Handbook 7460.8.

XVI. Rejection of Proposals

The HPHA reserves the right to consider as acceptable only those proposals submitted in accordance with the requirements set forth in this RFP and which demonstrate an understanding of the service specifications. A proposal may be rejected without further notice if it is:

1. Determined to be unreasonable in price, including the total price of the proposal and the prices for individual items as well; or
2. Determined to offer a set of terms or conditions that are contradictory to the minimum requirements included in this RFP.

XVII. Notice of Award

Any Contract arising out of this solicitation is subject to the approval by the Department of the Attorney General as to form, and to all further approvals, including the approval of HUD as may be required by State statute, regulation, rule, order or other directive.

Section 2

Scope of Work & Specifications

Section 2

Scope of Services

I. Introduction

A. Purpose or Need

The public housing program was established in 1937 to provide decent and safe rental housing for low-income families. In 1998, the Congress established a new Operating Fund Program. As part of that legislation, the Congress directed HUD to develop a formula for determining operating subsidies through negotiated rule-making with Public Housing Authorities, industry groups, and other affected parties. The Congress further directed HUD to contract with Harvard University's Graduate School of Design to "conduct a study of the costs to operate well-run public-housing." The Harvard "Cost Study" was completed in 2003 and recommended that public housing adopt a business model similar to multifamily housing, with project-based budgeting, project-based accounting, and project-based management. This business model became known as "asset management."

There are five (5) core elements or building blocks of asset management, including:

1. Project-based Funding;
2. Project-based Budgeting;
3. Project-based Accounting;
4. Project-based Management; and
5. Project-based Oversight and Performance Assessment.

The purpose of this RFP is to procure property management, maintenance and resident services to manage, operate and maintain the federal low-income public housing properties within the HPHA Asset Management Project 49 (AMP 49).

The HPHA intends to focus on performance results through measurements including, without limitation, occupancy rate, amount and percentage of rent collected, and tenant satisfaction. The HPHA expects the Successful Offeror to fully execute its business practices consistent with quality standards and will judge performance on the basis of outcome.

The Successful Offeror shall manage AMP 49 in accordance with asset management. In order to be financially viable, the Successful Offeror shall manage within the projected revenue and expenses for AMP 49.

B. Area of Service

The Successful Offeror shall be required to provide property management, maintenance, and resident services on the Island of Oahu under AMP 49 at the following locations:

Property	Address	Units
Kauhale Nani	310 North Cane Street, Wahiawa, HI 96786	50
Wahiawa Terrace	337 Palm Street, Wahiawa, HI 96786	60
Kupuna Home O'Waialua	67-088 Goodale Avenue, Wahiawa, HI 96786	40
	Total	150

Attached is a description and site map of the properties. See Attachments 1 and 2.

C. Funding Source and Period of Availability

Funds are subject to appropriation by the State Director of Finance and/or U.S. Congress and allocation by the Governor and State Legislature and/or HUD. Funding and period of availability may change upon written notice by the HPHA.

It is understood that the Contract shall not be binding, unless the HPHA can document that there is available an unexpended appropriation or balance of an appropriation over and above all outstanding contracts sufficient to cover the amount required by the Contract. Any Contract entered into as a result of this RFP is binding only to the extent that funds are certified as available and allocated and received by the HPHA. The availability of funds in excess of the amount certified as available shall be contingent upon future appropriations or special fund revenues.

It has been determined that there are sufficient funds to pay for the initial term of the Contract and the funds necessary for the remaining terms of the Contract are likely to be available from HUD. Pursuant to section 103D-315, HRS, the HPHA reserves the right to cancel the Contract when future funds are not available to support continuation of performance in subsequent Contract periods. If numerous acceptable and potentially acceptable proposals are submitted, the evaluation committee may rank the proposals and limit the priority list to three (3) responsive and responsible Offerors who submitted the highest-ranked proposals. If there are less than three (3) acceptable or potentially acceptable proposals, the HPHA shall not be required to hold discussions with these Offerors who submitted unacceptable proposals.

Discussion may be conducted with priority listed successful Offerors who submit proposals determined to be acceptable or potentially acceptable of being selected for award, but proposals may be accepted without discussions. The objective of these discussions is to clarify issues regarding the Successful Offeror's proposal before the best and final offer, if necessary.

The proposal with the lowest cost factor shall receive the highest available rating allocated to cost. Each proposal that has a higher cost factor than the lowest must have a lower rating for cost.

The points allocated higher to higher priced proposals must be equal to the lowest proposal price multiplied by the maximum points available for price, divided by the higher proposal price as follows:

$$\frac{\text{Price of the lowest price proposal} \times 10}{\text{Price of the proposal being rated}}$$

IV. Technical Review

The Offeror's proposal shall be in the form prescribed by this solicitation and shall contain a response to each of the areas identified that affects the evaluation factors for award.

- D. Past Performance. The HPHA may evaluate the quality of each Offeror's past performance. The assessment of an Offeror's past performance will be used as one means of evaluating the credibility of the Offeror's approach to work accomplishment in the management plan. A record of marginal or unacceptable past performance may be an indication that the promises made by the Offeror are less than reliable. Such an indication will be reflected in the HPHA's overall assessment of the Offeror's proposal. However, a record of acceptable or even excellent past performance will not result in a favorable assessment of an otherwise unacceptable technical proposal.

In investigating an Offeror's past performance, the HPHA may consider information in the Offeror's proposal and information obtained from other

sources, including past and present customers and their employees; other Government agencies, including state and local agencies; consumer protection organizations and better business bureaus; former subcontractors; and others. Evaluation of past performance is a subjective assessment based on a consideration of all relevant facts and circumstances. The HPHA may seek to determine whether the Offeror has consistently demonstrated a commitment to customer satisfaction and timely delivery of quality goods and services at fair and reasonable prices.

The HPHA's conclusions about the overall quality of the Offeror's past performance may be influential in determining the relative merits of the Offeror's proposal and in selecting the Successful Offeror whose proposal is considered most advantageous to the HPHA.

Past performance includes the Offeror's record of conforming to specifications and to standards of good workmanship; the Offeror's adherence to contract schedules, including the administrative aspects of performance, the Offeror's control of costs, including costs incurred for changes in the scope of services; the Offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and, generally, the Offeror's business-like concern for the interests of the client.

V. Method of Award

All proposals submitted will be evaluated on the basis of the evaluation criteria listed herein. Proposals shall conform to all terms and conditions contained in the Request for Proposals. Proposals which do not conform to all requirements expressed in this solicitation may be rejected without further evaluation, deliberation or discussion.

- B. Award will be made to the responsive and responsible Offeror whose proposal, conforming to the solicitation and will be most advantageous to the HPHA with consideration to price and other evaluation criteria set out in this RFP.

Pursuant to chapter 3-122-59 HAR, if there is only one responsible Offeror submitting an acceptable proposal, an award may be made to the single Offeror, rejected and new requests for proposals may be solicited if certain conditions are not met; the proposed procurement may be cancelled; or an alternative procurement method may be conducted.

- C. The HPHA reserves the right to award a Contract on the basis of the initial offers received without discussion. Offers are solicited on an “all or none” basis. Failure to submit offers for all items and quantities listed shall be cause for rejection. Proposals should be submitted initially on the most favorable terms of a price and technical standpoint, which the Offeror can submit to the HPHA.
